CHANGE IN CURRICULUM

TO ALL STUDENTS:

The Training Department has noted the following changes to the curriculum:

- a) That the modules LABOUR LAW 1 and LABOUR LAW 2 shall have to reflect the impending changes necessitated by the consolidation of the Trade Disputes Act, The Trade Unions and Employers' Organizations Act and the Employment Act into one.
- b) That Labour Practice and the Courts Module shall have to move to the final semester, before students graduate and begin to work as Labour Consultants.
- c) That in lieu of the Internship Module, students be allowed to prepare and submit a portfolio from their workplaces, where a student is in full time employment.

The changes will take effect from the 2023/2024 academic year and shall run as such.

We thank you for your kind attention, and in anticipation of your co-operation.
